Surabaya, Indonesia

I'm an Informatics student at Petra Christian University with a strong interest in technology. I specialize in web development and have experience with HTML, CSS, JavaScript, React, Vue.js, Next.js, PHP, Laravel, and MySQL to build practical, user-friendly websites. I enjoy learning new things and tackling projects that help me grow in both technical and creative ways.

Work Experiences

INDEX 2024 - Surabaya, Indonesia

Jul 2024 - Aug 2024

Vice Coordinator of IT Division

INDEX 2024 was an international exhibition dedicated to showcasing the work of interior design students, organized by Student Association of Interior Design at Petra Christian University.

- Led and managed talented team members in creating a website for the event using the Laravel framework.
- Organized task assignments for team members during the website development process.
- Coordinated with the creative division for the UI design and the assets for the website.
- Created the homepage layout of the website using tailwind CSS and several Javascript libraries.

EPICLAIR 2024 - Surabaya, Indonesia

Dec 2023 - Jun 2024

Member of IT Division

EPICLAIR 2024 was an international university competition organized by Student Executive Board of Petra Christian University.

- Built key sections of the website, including the homepage, landing page, and registration page, using the Laravelframework.
- Coordinated with the creative division for the UI design and the assets for the website.
- Adjusted the website's responsiveness on both mobile and desktop platforms.
